#### **M. Contract Execution**

Awards are not final, and the resultant contract is not considered executed and binding until approved by the New York State's Attorney General and Office of State Comptroller (OSC).

#### **N. Vendor Responsibility Questionnaire**

State agencies are required under State Finance Law § 163 (3) (a) (ii), to ensure that contracts are awarded to responsible vendors. Such requirements include, but are not limited to, the Bidder's qualifications, financial stability, and integrity. The Vendor Responsibility Questionnaire is required for contracts \$100,000 and over. OPWDD will require a complete Vendor Responsibility Questionnaire with your bid proposal if the contract resulting from this procurement is valued at \$100,000 and over. Vendors/not-for-profit provider agencies are able to file the Vendor Responsibility Questionnaire (VRQ) online via the New York State VendRep System or may choose to complete and submit a paper questionnaire. To enroll in and use the New York State VendRep System, see the [www.osc.state.ny.us/vendrep](http://www.osc.state.ny.us/vendrep).

#### **O. Health Information Portability and Accountability Act (HIPAA)**

The Federal Department of Health and Human Services (HHS) established HIPAA Standards for Privacy of Individually Identifiable Health Information (The Privacy Rule). The Privacy Rule (45 CFR Part 160 and Subparts A and E of Part 164) provides the first comprehensive federal protection for the privacy of health information. The Privacy Rule is carefully balanced to provide strong privacy protections that do not interfere with patient access to, or the quality of, health care delivery. HIPAA has an impact upon how OPWDD and contractors will deal with protected health information of our consumers. Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

#### **P. General Duties and Additional Responsibilities**

Maintain a level of cooperation with OPWDD necessary for the proper performance of all contractual responsibilities. Agree that no aspect of bidder performance under the Agreement will be contingent upon State personnel, or the availability of State resources, with the exception of all proposed actions of the bidder specifically identified in the Agreement as requiring OPWDD's approval, policy decisions, policy approvals, exceptions stated in the Agreement or the normal cooperation which can be expected in such a contractual relationship or the equipment agreed to by OPWDD as available for the project

completion. Cooperate fully with any other contractor that may be engaged by OPWDD. Agree to meet periodically with OPWDD representatives to resolve issues and problems. Recognize and agree that any and all work performed outside the scope of the Agreement or without consent of OPWDD shall be deemed by OPWDD to be gratuitous and not subject to charge by the bidder.

**Q. NYS Information Security Breach and Notification Act (NYS Technology Law, § 208)**

“Contractor shall comply with the provisions of New York State Information Security Breach and Notification Act (General Business Law § 889-aa; State Technology Law § 208). Contractor’s negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor’s agents, officers, employees, or subcontractors.”

## 15. Consumer Safety Information

OPWDD provides services to individuals exhibiting Pica, which is a medical disorder characterized by an appetite for largely non-nutritive substances, e.g., cigarette butts, paper, gum, etc. Attention to the sanitation and cleanliness of the areas surrounding OPWDD's state operated program sites and residential buildings is very important to the health and safety of those we serve. Please ensure care is taken to properly dispose of cigarette butts and rubbish while on OPWDD property.

OPWDD property has special receptacles for cigarette butt disposal. Contractor and subcontractor employees shall use these receptacles and throw trash in garbage cans or dumpsters. Compliance with this policy is appreciated.

## 16. Consultant Disclosure

Effective June 19, 2006, contractors doing business with the State of New York in a "consulting" capacity will be required to file forms disclosing, by employment category, the number of persons employed by them and their subcontractors (if any) as a consulting firm or an individual consultant; the number of hours worked; and the monetary compensation received from the State of New York for work performed by these employees. Reporting will be required via the utilization of two separate forms – "Form A" and "Form B".

In general, however, Form A is to be completed once upon initial contract award and is used to report "planned employment". Form B is required annually and reports on "actual employment figures" for the preceding state fiscal year. The New York State fiscal year commences on April 1st and concludes on March 31st.

## 17. Evaluation Criteria: Method of Award

**OPWDD will select the responsible and responsive Bidder that will provide the lowest Estimated Annual Total Cost for Snow Removal and Ice Control Services for each site. A bidder may bid on one or more sites. A bidder may be awarded one or multiple sites. Contractor shall have adequate staff and equipment to accomplish the snow removal and ice control services at site(s) awarded without delay. OPWDD reserves the right to request detailed listings of equipment, staffing, service routes, etc.**

Multiple contracts may be awarded. Only proposals judged to be responsive to the submission requirements set forth in this IFB will be evaluated. OPWDD reserves the right to reject any and all offers.

The award will be based on the estimate of 50 annual snow removal events and 50 annual ice control events. It is understood that this is an estimate only. There may be more or fewer snow removal and ice control events annually. There is no guarantee and payments will be made on actual services rendered.

Should mathematical errors be made by the bidder when calculating the Estimated Annual Total Cost for Snow Removal and Ice Control Services for each site on the Cost Proposal Form, the prices given in Column A (Snow Removal Service Price per Event) and Column B (Ice Control Service Price per Event) for each location will be used to determine the bidder who has provided the lowest Estimated Annual Total Cost for Snow Removal and Ice Control Services. To determine the Estimated Annual Total Cost for Snow Removal and Ice Control Services (Column D) per site, Snow Removal Service Price per Event (Column A) and Ice Control Service Price per Event (Column B) are added together, and that total is recorded in Column C (Snow Removal and Ice Control Services Total per Event (A+B)). The price in Column C is multiplied by 50 estimated annual number of events and is recorded in Column D (Estimated Annual Total Cost for Snow Removal and Ice Control Services (C x 50)).

In the event of a tie bid, the award will be made by random selection.

## Qualifications & Scope of Work

### General

OPWDD is requesting Snow Removal and Ice Control services for various community residences and day program sites located in the Western NY DDSOO catchment area. A site listing with addresses and telephone numbers is included in Exhibit A- Site Listing.

It is extremely important during inclement weather that all efforts are made to have the sites accessible and safe for the individuals and staff. To have accessibility, snow clearing will commence when three inches of snow has accumulated at the contracted site, however, the House Manager (HM) or other OPWDD staff has the right to call for additional service as deemed necessary for safety concerns. Vendors must respond to additional service calls within 2 hours of request.

### Snow Removal & Ice Control Services

Vendor must be able to provide snow removal services on a seven day per week, 24 hours a day basis. **Please note:** Staff change shifts at approximately 7:00 a.m., 3:00 p.m. and 11:00 p.m. Our individuals leave their homes by 7:00 a.m. and return at 3:00 p.m. **The driveways and sidewalks MUST be clear of snow and ice during their departures and arrivals.** Plowing, sanding, and ice control services should be coordinated with these times in mind.

### Snow Removal

**Automatic 3 Inch Service with On-Call Privileges:** Snow removal services are to begin automatically at the accumulation of three (3) inches at the contracted site, however the House Manager or other OPWDD staff has the right to call for additional service as deemed necessary for safety concerns. Snow removal may be followed by the spread of deicer for ice control when appropriate or needed. Work shall be continuous until all plowing and clearing has been completed, in accordance with the needs of a site. After snowfall events that exceed 3" in depth, all maintained surfaces shall be cleared to bare pavement. In the event of blowing and/or drifting snow and/or formation of ice; maintained surfaces shall be serviced to obtain a safe environment.

The basic movement and/or plowing of snow shall be planned by the Contractor, however, the following guidelines must be adhered to at all times:

- **All exits, fire escapes, and fire hydrants must be cleared of snow.**
- Snow accumulation is to be cleared from driveways, parking areas, sidewalks and/or ramps leading from the front door to the driveway; paths to and from all egress doors; walkways to storage sheds, oil fill pipe, generators, and/or evacuation areas; and the evacuation point, located on the property, but apart from the residence. All walkways/paths must be cleared wide enough to accommodate wheelchairs.
- Plows cannot be used to clear sidewalks or walkways.

---

Invitation for Bid

---

- Any **decks** that are designated as an egress path shall be cleared a minimum of 6' wide from egress point to the evacuation point as identified by the House Manager. Snow is to be removed from all decks.
- Snow shall not be pushed against houses, vehicles, buildings, building entranceways, sidewalks, exit doors, fire hydrants, trash receptacles, garage doors, shrubbery, trees, lamp posts, or emergency generators and fences
- Banking of snow shall be limited in height to not restrict visibility at the entrance to the roadway.
- Care must be taken not to damage or push snow on adjoining properties.
- Mailboxes **MUST** be shoveled out to allow for mail delivery.

### Ice Control

Driveways, identified roads, parking areas, walkways and fire escapes, sidewalks, paths, decks, stairs for egress, paths to generators, paths for oil delivery, and path to trash receptacles must be clear of ice at the hours indicated above, seven days a week, and whenever conditions of packed snow, freezing rain or frozen water occur; or when summoned by an OPWDD staff.

Ice control will be accomplished by the application of magnesium chloride brine mixed with road salt, **provided by the contractor** at rates and densities sufficient to maintain roadways and parking lots reasonably free of ice and snow. Ice control application must immediately follow every plowing to bare surface. **Sidewalk ice control** will be accomplished by the application of calcium chloride or potassium chloride, also **provided by the Contractor**.

Contractors may be requested to perform additional applications of calcium chloride, potassium chloride or magnesium chloride brine mixed with rock salt (as appropriate) by the House Manager or OPWDD staff.

### Equipment & Staff Requirements

Contractors must use sufficient size plows and have commercial quality salt/sand/calcium chloride spreading equipment to remove snow and ice from the driveways and parking lots at the locations. Manually broadcast spreading with a shovel from the bed of a pick-up truck does not provide sufficient coverage to driveways and parking lots. Only qualified operators and proper equipment will be used along with special efforts to prevent abuse and damage to surfaces of paved roads, walks, curbs, barriers, landscape effects, and grass areas. Contractor shall have adequate staff and equipment to accomplish the snow removal and ice control services without delay.

### Fines

Sidewalks and access roads that are not maintained by Village, Town, County or State agencies must be cleared. **Any fines received as a result of failing to clear these walkways are the responsibility of the contractor.**

## Vehicle Removal

If vehicles block the driveway or parking areas, every effort must be made to have staff at the sites move vehicles in order to allow a complete clearing of parking areas and walkways. The Contractor is not responsible to shovel out vehicles.

Under no circumstances shall the Contractor move any staff owned or State- owned vehicles. It is highly recommended that the Contractor call each site 15 minutes prior to arrival to give staff time to move the vehicles.

It is to be noted that there may be occasions when staff are unable to move vehicles due to staffing levels. The Contractor is to do the best they can to clear around the vehicles in those circumstances.

## Snowplow Damage

The Contractor shall be responsible for the repair of all damage to property, landscape, walkways, or any structures or neighboring properties caused by the contractor's employees or equipment. The Contractor must notify the House Manager or designee immediately in the event of causing damage to the property, i.e., buildings, sheds, paved areas, or the property of neighbors adjoining OPWDD property. The Contractor will be required to repair/replace damaged property within 30 days after weather permits. If the damage is not satisfactorily repaired within 30 days after weather permits, OPWDD shall have the repairs made and will bill the Contractor or reduce payment for the total cost incurred as a part of the OPWDD's repair effort.

If damage to lawn occurs, the Contractor must repair by replacing sod, topsoil, and seed around the perimeter of sod; or use screened topsoil, seed, and Penn mulch, re-rake and roll, to return area to pre-damage condition.

The snowplow Contractor must complete all snowplow damage repairs by **April 30<sup>th</sup> of the calendar year**. If the repairs are not completed by April 30<sup>th</sup>, OPWDD may find an alternative Contractor to complete the repairs. The cost for these repairs will be billed to the snowplow Contractor that caused the damage. Failure to complete the snowplow damage repairs by April 30<sup>th</sup> may affect final payment, cause possible charge backs to the Contractor, and may affect the continuation of the snowplow contract. **Final payment of the season will not be made until the Business Office is notified that all damage has been repaired.**

If the Contractor causes damage to a staff or state vehicle, the Contractor must notify the House Manager and the Western DDSOO Business Office immediately, or in the event it happened after hours, as soon as possible the next business day.

The Contractor will be responsible to report the damage to their private insurance company and exchange insurance information with the staff person, if it was a personal vehicle.

## Snow Removal/ Pushback

Only OPWDD, Western NY DDSOO Business Office Administration, on a case by case basis, may authorize snow removal with heavy equipment and the push back of snowbanks, etc. These services will be considered outside the contract and must be billed separately. The site's current Contractor will be asked if interested in providing a quote for this additional service.

---

**Invitation for Bid**

---

- A. If the site Contractor decides to provide a quote, and is awarded the work, (s)he will be responsible for all plow damage repairs at the end of the season, including any that may occur due to the snow movement process.
  
- B. If the snowplow Contractor decides not to provide these services and another Contractor is procured, safeguards will be put into place to clearly outline each Contractor's responsibilities in case there is substantial damage caused by another Contractor. It will be the responsibility of the other Contractor to repair any damage caused by his/her services.

**Additional Requirements**

At the end of the season, all **excess sand/salt** must be removed from the premises at the contractor's expense. The House Manager will determine the presence of excess sand/salt.

Contractor shall cooperate with House Managers and staff. Contractor will comply with safety and security requirements imposed by the site. The Contractor will adhere to all policies and regulations of OPWDD, including but not limited to smoking, parking, etc. Contractor is to adhere to local/state noise control ordinances/laws.
